Dear Sir:

We have copies of Federal Form 9-331, Application for Permit to Drill, for your Lone Star Industries, Schalk 94 #1 well located in the NE quarter Section 26, Township 32 North, Range 8 West. You have not indicated in your proposed casing and cementing program that you intend to cover the Mesaverde Formation. As this well is in the Blanco Mesaverde Gas Pool and it is offset by Mesaverde production, the Oil Conservation Commission will require that cement be placed across the entire Mesaverde section.

If you have questions, please contact me.

Thank you.

Yours very truly,
