

NEW MEXICO OIL CONSERVATION COMMISSION
MULTIPOINT AND ONE POINT BACK PRESSURE TEST FOR GAS WELL

Form C-122
Revised 9-1-65

Type Test ☒ Initial ☐ Annual ☐ Special					Test Date 8-27-74																																																																																														
Company Northwest Pipeline Corporation				Connection New Completion																																																																																															
Pool Blanco				Formation Pictured Cliffs																																																																																															
Completion Date 8-7-74		Total Depth 3534		Plug Back TD 3509		Elevation 6698' GL																																																																																													
Csg. Size 2 7/8"		Wt. 6.4#	d 2.441	Set At 3528	Perforations: From 3390 To 3428																																																																																														
Tbg. Size		Wt.	d	Set At	Perforations: From To																																																																																														
Type Well - Single - Bradenhead - G.G. or G.O. Multiple Tubingless completion				Packer Set At None		Well No. #12																																																																																													
Producing Thru Casing		Reservoir Temp. °F @		Mean Annual Temp. °F		Baro. Press. - P _a																																																																																													
L		H	Gg .635	% CO ₂	% N ₂	% H ₂ S
