Re: Pinon Mesa B #1 L-25-31N-14W

Dear Brenda:

The regularly scheduled bradenhead test on the referenced well was inconclusive in proving casing integrity. Please reschedule and retest the well in the near future.

Notify this office at least 24 hours prior to test, so we may provide a witness.

Yours truly,

A handwritten signature in cursive script, appearing to read "Charles Gholson".

Charles Gholson
Deputy Oil & Gas Inspector
