

MESA PETROLEUM CO.
Hamilton Federal #501
Sec. 30, T32N, R10W
1650' FS & EL of Section 30
San Juan Co., New Mexico

DEVELOPMENT PLAN FOR SURFACE USE

1. See Exhibit A for existing roads.
2. The access road is from an existing road north, approximately 800' and indicated on Exhibit A. The road will be compacted earth, 16' wide with bar ditches for drainage.
3. Exhibit A shows wells existing within a one-mile radius.
4. See Exhibit A.
5. Production facilities at the location will consist of a well effluent production unit located 50 feet west of the well and liquid storage tanks located approximately 100 feet northeast of the production unit, tanks will run east to west. See Exhibit B for details.
6. Water supply for drilling operations will be procured at either an irrigation ditch near Cedar Hill, N. M. or the Animas River crossing at Cedar Hill, N. M. Point of water supply is indicated on Exhibit A.
7. Waste drilling fluids and cuttings will be contained in earthen pits to be backfilled after sufficient drying. Trash and garbage will be

that pit and back filled.
