P. O. BOX 2088

SANTA FE, NEW MEXICO 87501

February 17, 1976

El Paso Natural Gas Company
P. O. Box 990
Farmington, New Mexico 87401

Attention: Mr. Donald R. Read

Administrative Order NSL-753

Gentlemen:

Reference is made to your application for approval of a non-standard location for your Pinon Mesa D Well No. 2 located 900 feet from the South line and 600 feet from the East line of Section 13, Township 31 North, Range 14 West, NHPM, Basin-Dakota Pool, San Juan County, New Mexico.

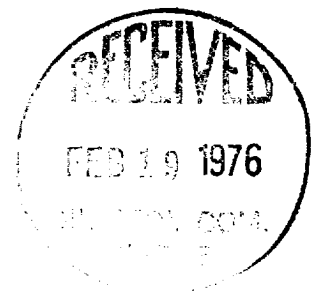

By authority granted me under the provisions of Rule 104 F of the Commission Rules and Regulations, the above-described unorthodox location is hereby approved.

Very truly yours,

JOE D. RAMEY
Secretary-Director

OIL CONSERVATION COMMISSION

P. O. BOX 2088

SANTA FE, NEW MEXICO 87501

Dear Sir:

Enclosed for you are two copies of a report on the oil conservation program in the state of New Mexico. The report was prepared by the Oil Conservation Commission and is available to you for your information.

Very truly yours,

Director

The Oil Conservation Commission was established in 1953 by the State of New Mexico to promote the conservation of oil resources. The Commission's primary objective is to develop and implement a program of oil conservation that will ensure the maximum recovery of oil from the state's reserves. The Commission has been successful in achieving this goal through its various programs, including the promotion of energy conservation, the development of new oil fields, and the implementation of oil conservation measures in the oil and gas industry.

The report enclosed with this letter provides a detailed overview of the Commission's activities and accomplishments over the past several years. It also discusses the Commission's future plans and the challenges it faces in the coming years. We hope that this report will be helpful to you in your work.

Sincerely,

John J. ...

Director

Enclosure
