Administrative Order No. DHC-537

Consolidated Oil and Gas Inc.
P. O. Box 2038
Farmington, New Mexico 87401

Attention: Dale Richardson

Re: Lea Well No. 2, Unit E,
Sec. 30, T-31-N, R-12-W, NMPM
San Juan County, New Mexico
Wildcat Pictured Cliffs and Wildcat Fruitland

Gentlemen:

Reference is made to your recent application for an exception to Rule 303-A of the Division Rules and Regulations to permit the subject well to commingle the production from both pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303-C, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the two zones, is hereby placed in abeyance.

In accordance with the provisions of Rule 303.C.4., total commingled oil production from the subject well shall not exceed 20 barrels per day, and total water production from the well shall not exceed 40 barrels per day. The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allocation for each respective prorated gas pool as printed in the Oil Conservation Division's San Juan Basin Gas Proration Schedule.

Assignment of allowable to the well and allocation of production from the well shall be on the following basis:

RECEIVED

DEC 10 1984

OIL CONSERVATION DIVISION

Wildcat Pictured Cliffs Pool: Condensate 50%, Gas 95%
Wildcat Fruitland Pool: Condensate 50%, Gas 5%

Pursuant to Rule 303-C 5, the commingled authority granted by this order may be rescinded by the Division Director if, in his opinion, conservation is not being best served by such commingling.

Very truly yours,

R. L. STAMETS,
Director
