(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

PER VERBAL APPROVAL OF JOHN KELLER 7/26/85 P.M.

Total depth of 4000' KB. Unable to stay on lease with present deviation and logs did not show any productive zone at present depth; therefore, the decision was made to plug and abandon well.

Plan to plug and abandon well as follows:

Set 100' plug with 30 sx class "B" (35.4 CF) from 3980 to 3880' KB.

Set 100' plug with 45 sx class "B" (53.1 CF) from 3006 to 2906' KB.

Set 100' plug with 60 sx class "B" (70.8 cf) from 810 to 710' KB.

Set plug from 406' to surface with 195 sx class "B" (2301.1 cf).

Plan to set marker and restore surface in accordance with instructions from the surface management agency.
