☐ Casing Repair

☐ Water Shut off

☐ Altering Casing

☐ Conversion to Injection

☒ Other - Sidetrack

13. Describe Proposed or Completed Operations

Burlington Resources Oil & Gas Company was unable to pull the 5 1/2" liner from the subject well. It is now intended to set a CIBP @ 2389'. A whipstock will be set above the CIBP. A window will be milled and the well sidetracked to a new total depth of 2737'. The well will then be underreamed and cavitated. A new 5 1/2" liner will be ran. Tubing will be run and the well returned to production.

Verbal approval to sidetrack from Wayne Townsend, BLM, 11-6-96.
