13. **Describe Proposed or Completed Operations**

Southland Royalty Company requests a six month shut-in for the subject well. it is planned to begin producing this well May 1, 1995. High water volumes and low gas volumes have made this well non-economical to produce. It is now felt that these high water volumes will decrease and gas rates will increase making the well economical to produce.

14. **I hereby certify that the foregoing is true and correct.**
