OIL CON. DIV.  
DIST. 3

*Administrative Order NSL-2745*

Dear Mr. Thompson:

Reference is made to your application of November 7, 1989 and December 13, 1989 for a non-standard coal gas well location for your San Juan 32-8 Well No. 208 to be located 940 feet from the South line and 2020 feet from the West line (Unit N) of Section 29, Township 32 North, Range 8 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. The W/2 of said Section 29 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

  
William J. LeMay  
Director

Re: Unorthodox Gas Well Location  
San Juan 32-8 Unit #208  
940' FSL & 2020' FWL  
N 29 T32N, R8W  
Fruitland Coal Gas Pool

Dear Mr. Stogner:

The San Juan 32-8 Unit agreement does not allow N/2 and S/2 well dedications because of problems caused with intervening drilling blocks in a future Fruitland Coal participating area. Please reconsider our unorthodox location with a W/2 dedication.

If you have more questions concerning the constraints of the San Juan 32-8 Unit agreement please call Warren Curtis in our Salt Lake City office. His telephone number is (801) 584-6669.

Sincerely,

*Paul C. Thompson*
