13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Amoco Production Company intends to modify the subject well as follows:  
A blind plate will be installed at the surface to prevent gas sales. All production equipment associated with the Fruitland Coal will be dismantled. Amoco plans to use the well as a pressure monitor well for the Fruitland Coal. If the well shall no longer be used as a pressure monitor well, the coal horizon will be plugged and abandoned at that time. From this point forward the Fields A 21R will become the producing well for the coal horizon for the 320 spacing unit.
