	Lost Circ	Trucking THREE RIVERS	300.
	DST	Supervision	150

Note reset deadmen anchors. Rig up pump & pit. Fill pit with 80 BBLS 2% KCL. Rig up Jays wireline to retrieve tbg choke. Tbg choke hung up in undersize nipple below master valve. Injected 60 BBLS down backside to kill well. Unloaded casing in 4 min blew well down and retrieved tbg choke. Pulled 44 joints of tbg to part. Tbg parted right below upset. Pins corroded badly. Changed out casing valves & Trip tbg back in hole and come out laying down. SHUT down for night.
