Mr. Clyde Phillips
Consolidated Oil & Gas, Inc.
Box 2038
Farmington, New Mexico

Re: Consolidated Oil & Gas
Pan American State Com #1
N-36-32N-13W

Dear Mr. Phillips:

The packer leakage test report for subject well received in this office November 3, 1965 has some places of disagreement.

The Dakota pre-flow shut-in pressure is shown as both 387 and 887 and is plotted on the graph at approximately 787.

Please correct and resubmit the test report.

Yours very truly

A. R. Kendrick
Engineer, District #3
