NOTICE OF INTENTION TO ABANDON WELL.....	

(INDICATE ABOVE BY CHECK MARK NATURE OF REPORT, NOTICE, OR OTHER DATA)

April 7, 1948

Well No. 4 is located 1900 ft. from [N] line and 660 ft. from [E] line of sec. 35

SW/4 of SE/4 Sec. 35 32N 14W 16W NMRH  
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)  
Ute Dome (Wildcat) San Juan New Mexico  
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 6150 ft.

## DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

At 8:00 PM on April 7, 1948, 72 hours will have elapsed since setting 2553 feet of 8-5/8" OD 32# Grade 2 (Second-hand) Seamless Casing and cemented with 350 sacks of Ideal Cement using Halliburton method. At time mentioned above, water shut-off will be tested as follows: A pressure of 500# will be built up and held for one hour, and if shut-off tests OK, cement plug will be drilled and a pressure of 500# again built up and held for one hour. If this test, too, is OK, drilling operations will be resumed.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Company Stanolind Oil &amp; Gas Company

Address Box 487, Farmington, New Mexico
