Dear Sir:

Attached are copies of a four-point back pressure test which was performed on the Aztec Oil and Gas Company's Texas-Navajo 1-A, Blue Hill-Paradox Field, San Juan County, New Mexico, on July 1, 1953, by Mr. Al Wiederkehr of Southern Union Gas Company. Also attached are copies of the bottom-hole pressure data sheets for the 1959 annual shut-in test, which was obtained on July 22, 1959. The back pressure curve contains both the original test data and the 1959 shut-in test data. This was done in order that your office might have a copy of the original test curve on this well.

Yours very truly,

1. The first of these is the fact that the United States has a large and growing population of people who are not citizens of the United States. This is a result of the large number of people who have been admitted to the United States as permanent residents, but who have not yet become citizens. This is a problem because these people are not entitled to the same rights as citizens, and they are not subject to the same responsibilities. This is a problem because these people are not entitled to the same rights as citizens, and they are not subject to the same responsibilities.
