17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We are proposing to convert well from an injection well to a pumping well starting work on it approx. July 7, 1981.
No additional surface will be required.
We will sand pump and clean the existing 4 1/2" casing to the Gallup formation perforations (existing) at 1258 - 1264. There will not be any new perforations made.
We will install 2 3/8 tubing and 5/8 rods and bottom hole pump down to the existing perforations.
This well was converted from a producing well to an injection well on April 12, 1965.
