Mr. Joe E. Starks, Attorney
Aztec Oil & Gas Co.
2000 First National Bank Building
Dallas, Texas 75202

Dear Mr. Starks:

Mr. George Hatch, Commission Attorney in Santa Fe, has forwarded to me three copies of an application for approval of a non-standard proration unit with attachments pertaining to the acreage dedicated to your Vasaly #2 well, located in the southwest quarter of section 31, township 32 north, range 11 west.

I am enclosing a copy of a non-standard unit approval issued in this office September 3, 1968. I am also enclosing a page from Order R-1670 which is the order setting out northwestern New Mexico gas rules and regulations, calling your attention to Rule 5 B, paragraphs 1 and 2 which provide that non-standard units which consist of all of a legal subdivision (half section in this case) and which do not vary from 320 acres by more than 25%, may be approved by the district supervisors on the basis of information taken from the dedication plats filed with the Notice of Intention to Drill.

I point out the above information in order to save you the inconvenience and extra work involved in making formal applications for similar units in the future.

Yours very truly,

A handwritten signature in cursive script that reads "Emery S. Arnold".

Emery S. Arnold
Supervisor, District #3
