Gentlemen:

Universal Resources Corporation filed Form C-101 for permit to drill the two Blanco Mesaverde wells on November 8, 1972.

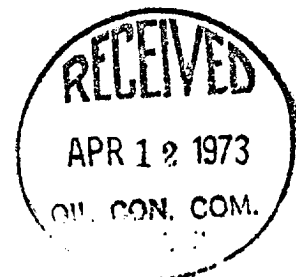

Due to unforeseen pooling difficulties, clearance was not obtained until January 5, 1973 Case No. 4889 Order No. R-4469. Since that time, field conditions have precluded any dirt work or rig movement. We are ready to commence drilling operations as soon as the roads and location dry enough for equipment movement.

Universal Resources respectfully request reinstatement of approval to drill these two wells.

Yours very truly,

Curtis J. Little
