☐ Non-Routine Fracturing

☐ Water Shut off

☐ Conversion to Injection

13. Describe Proposed or Completed Operations

It is intended to commingle the subject well in the Blanco Mesaverde (Pool Code 72319) and the Basin Dakota (Pool Code 71599). The production will be commingled according to Oil Conservation Division Order Number 11363. Allocation and methodology will be provided after the work is completed. Commingling will not reduce the value of the production.

A down hole commingle application was filed with the OCD office in Aztec in November. The application never reached the OCD office in Santa Fe. Therefore, we are applying for the down hole commingle order under the new rule R-11363.

Notification of the intent to commingle the subject well was sent to all interest owners via certified mail in November, 1999. No objections were received.
