Re: An un-netted pit in violation of order R-8952

Dear David:

A field inspection conducted on September 9, 1994 revealed that the EPNG Co. dehydrator pit at the Meridian Oil, Inc. Sinclair Com #1A M-32-32N-11W contains about 100 BBLs of water with a light skim of oil. Your application for exception to the order (form C-134) is not approved and you are hereby directed to bring the pit into compliance prior to October 27, 1994. The pit is also utilized by the operator for a compressor and as a tank drain.

Yours truly

Charles Gholson
Deputy Oil & Gas Inspector
