**RE: Moore Gas Com /D/ #1
SW/4 Section 25-T32N-R12W
San Juan County, New Mexico**

Ladies and Gentlemen:

The captioned well was drilled in 1990 with Southland standing out for its 25% share. The spacing unit designated for this well was the W/2. We have since realized that the Moore Gas Com /B/ #1, which was drilled in late 1989 and which is owned 50% by Amoco and 50% by Conoco, was given a N/2 spacing unit. The spacing unit for the captioned well must therefore be changed from the W/2 to the S/2. Conoco's and Amoco's ownership will change from 37.5% each to 25% each and Southland's ownership will change from 25% to 50%.

Since all of the necessary documents (JOA, Com Agreement and Unit Dec) have been signed by all three parties, Amoco has made the necessary corrections from the W/2 to the S/2 on these documents and proposes that we not secure new signatures. Enclosed are copies of these instruments for your files.

Southland signed the JOA subject to an Amendatory Letter dated October 8, 1990 and these changes have been incorporated into the JOA as well as the spacing unit changes in order to keep everything in one agreement. Southland's original signature page is enclosed

Southland Royalty Company
Conoco Inc.

Page 2

with Southland's copy of this letter and we ask that the reference to the Amendatory Letter be stricken and initialed and that the signature page then be returned to Amoco.

If this plan of action is acceptable, please so acknowledge by dating and signing in the space provided below and returning one copy of this letter to Amoco. Once we have received your concurrence, we will send the Com Agreement for approval and recording and the Unit Dec for recording. Of course, we will provide you with fully executed, approved and recorded copies of all instruments when available.

Very truly yours

COPY

Barbara J. Sturgeon

Enclosures
