17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) *

The following work has been done in order to bring the surface location into compliance for final abandonment:

- 1.) The cable and debris collected by Steve Shafran and Mark Philliber has been removed.
- 2.) The surface location and general vicinity of the location for the subject well has been reinspected on two separate occasions by two different Dugan Production employees subsequent to removing material in Item #1.

It is our belief that the location is now ready for final abandonment.

18. I hereby certify that the foregoing is true and correct
