

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

January 14, 1964

*R. G. West
209 Carlisle SE
Albuquerque, New Mexico*

Dear Mr. West:

*We are again returning Forms C-128 which you have
submitted for your well in the NW¹ Section 21-18N-3W.*

*We direct your attention to our letter in which we
requested that the plats be signed by the surveyor who
staked the location. Please see that this signature
is affixed to the plats and return them to this office
at your early convenience.*

Yours very truly

*Emery C. Arnold
Supervisor, District #3*

OIL CONSERVATION COMMISSION
1000 RIO BRAZOS ROAD
AZTEC, NEW MEXICO

January 2, 1964

*B. G. West
209 Carlisle SE
Albuquerque, New Mexico*

Dear Mr. West:

We are returning copies of Federal Notice of Intention to Drill, along with the plats which you have forwarded pertaining to your well in the NW₄ Section 21-18N-3W.

You will note that the footage description on the Notice of Intention to Drill does not conform to the footage description on the plat. Also the plat must be signed by the surveyor who staked the location. It is also customary to identify the well with a lease name. On Federal leases the original lessee is usually used; however this is optional with the operator.

Yours very truly

*Emery C. Arnold
Supervisor, District #5*

PROPOSED CASING AND CEMENTING PROGRAM

SIZE OF HOLE	SIZE OF CASING	WEIGHT PER FOOT	SETTING DEPTH	QUANTITY OF CEMENT
4 1/4"	3 5/8" (surf. c.)	32	30'	20 bags
	4" well			

The well will be drilled to a depth of 400' and will be cased with 3 5/8" casing to a depth of 30' and 4" casing to a depth of 400'. The well will be cemented with 20 bags of cement.

IN ABOVE SPACE DESCRIBE PROPOSED PROGRAM: If proposal is to deepen or plug back, give data on present productive zone and proposed new productive zone. If proposal is to drill or deepen directionally, give pertinent data on subsurface locations and measured and true vertical depths. Give blowout preventer program, if any.

24.

*See Instructions On Reverse Side

Instructions

General: This form is designed for submitting proposals to perform certain well operations, as indicated, on all types of lands and leases for appropriate action by either a Federal or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 1: If the proposal is to redrill to the same reservoir at a different subsurface location or to a new reservoir, use this form with appropriate notations. Consult applicable State or Federal regulations concerning subsequent work proposals or reports on the well.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 14: Needed only when location of well cannot readily be found by road from the land or lease description. A plat, or plats, separate or on this reverse side, showing the roads to, and the surveyed location of, the well, and any other required information, should be furnished when required by Federal or State agency offices.

Items 15 and 18: If well is to be, or has been directionally drilled, give distances for subsurface location of hole in any present or objective production zone.

Item 22: Consult applicable Federal or State regulations, or appropriate officials, concerning approval of the proposal before operations are started.
