Southern Union Production Co. former operator

Executed this the.....**13**.....day of.....**November**....., 195**2**

Approved: Nov. 25, 1952

By James E. Arnold

(See Instructions on Reverse Side)

INSTRUCTIONS

Form C-11a

This form shall be prepared and filed quarterly with the District Office of the Oil Conservation Commission, covering each unit from which oil or gas is produced. A separate certificate shall be filed for each transporter authorized to transport oil or gas from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter except that in the case of a temporary change in the transporter involving less than the allowable production for one operation period, the operator shall in lieu of filing a new certificate, notify the Oil Conservation Commission District Office, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in such notice.

This certificate when approved, except for amendments by the Oil Conservation Commission, shall constitute a permit, a pipeline connection and authorization to transport oil or gas from the units named therein and shall remain in full force and effect until:

- (a) Operation of such unit ends;
- (b) The unit is sold to another owner;
- (c) The permit is otherwise terminated.

If any of the above conditions are not met, the transporter or the operator have not been supplied with a new certificate, the transporter shall explain fully under the heading "REMARKS".

In all cases where the transporter is changed, the change in operating ownership or a change in the transporter shall be noted on the unit or the show under "REMARKS" and the transporter shall be noted as the transporter previously authorized to transport.

A separate report shall be filed quarterly with the District Office by the Oil Conservation Commission.
