Aztec, N. Mex.

Gentlemen:

Our bonding company has never received a release on the plugging bond for the state of New Mexico. Please send me a letter or wire stating that you have or will pick up the obligation to the state of New Mexico concerning this well, as this was part of the consideration with Yockey. And that you will also transfer the data required by the Oil Conservation Commission and Gas and Oil Accounting Commission to take care of this red tape through your office. Upon receipt of this I will sign the division order and return it to you.

Very truly yours,

R.H. Wininger
