13. Describe Proposed or Completed Operations

Response to letter 14-08-001-2898 (CA) 3105 (07327)

Meridian Oil Inc. respectfully request that test data requiring that the Cornell #3 is capable of producing in paying quantities be extended until December of 1994. This time frame will allow Meridian to re-connect the Cornell #3 into a GCNM system which will allow the well to flow into line pressures that are lower than the current shut-in pressures of 150 psi.

14. I hereby certify that the foregoing is true and correct.
