Re: Carnahan #1, P-35-30N-12W

Gentlemen:

New Mexico Oil Conservation Commission Order R-4384 which was signed September 6, 1972, denied approval of a non-standard 160 acre spacing unit for the above well.

Commission Form C-104 authorizing production of gas from this well was approved on April 18, 1972. In view of the ruling in the above mentioned order, I am hereby issuing notice that authority for production granted by said Form C-104 is cancelled.

By copy of this letter I am notifying El Paso Natural Gas Company who is the gas transporter to shut the well in until such time as a legal unit is formed and a new C-104 is approved.

Yours very truly,

Emery C. Arnold
Supervisor, District #3
