Flora Vista Mesaverde Pool

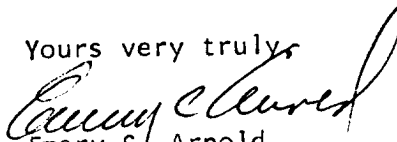

Dear Mr. Rodgers:

The above well has been shut-in and not produced for several years due to communitization problems among interest owners in the spacing unit.

The problems have now been resolved and a new plat and C-104 have been filed by the operator dedicating the east half of Section 35 to the well.

The well may now be legally produced insofar as the New Mexico Oil Conservation Commission Statutes are concerned.

Yours very truly,

Emery C. Arnold
