Re: 1RP-1188, Excavation Closure Approval Confirmation, Targa Midstream Services, L.P., Teague 10" High Pressure (Site #73), Unit A (NE/4, NE/4), Section 18, Township 23 South, Range 36 East, Lea County, New Mexico

Dear Mr. Johnson:

This letter is submitted to the New Mexico Oil Conservation Division (NMOCD) on behalf of Targa Midstream Services, L.P. (TMS) by Larson and Associates Inc. (LA), its agent, to document the verbal approval granted by the NMOCD for TMS to close the excavation at the above-referenced location. On February 14, 2007, LA, on behalf of TMS, submitted the delineation results of the release to the NMOCD in the report titled, "1RP-1188, Targa Midstream Services, L.P., Teague 10" High Pressure (Site #73), Unit A (NE/4, NE/4), Section 18, Township 23 South, Range 36 East, Lea County, New Mexico". On February 16, 2007, based on our conversation, you granted verbal approval for TMS to close the excavation. The excavation has since been closed and no further action is necessary. Thank you for your consideration in this matter. You may contact Mr. Cal Wrangham with TMS at (432) 688-0542 or myself at (432) 687-0901 if you have any questions. We may be reached by emailing cwrangham@targaresources.com or mark@laenvironmental.com.

Sincerely,

Larson & Associates, Inc.

Mark J. Larson, P.G., C.P.G., C.G.W.P.
Sr. Project Manager / President
