Describe Cause of Problem and Remedial Action Taken.* At around 1:00 pm I was notified of a spill at the Phillips Lea Battery water tank, Upon investigation of the incident which was cause by corrosion from the Production water in piping equipment which ate away at a pug in filtration pod, and I notified personnel of findings and how issue was address.

Describe Area Affected and Cleanup Action Taken.* I notified my immediate personnel of the situation that was caused inside a 20W x 30L dike area. I immediately called for a Vacuum truck to address the recovery of production water.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
