ENV –Agency Reportable – 12 BO – Garnett Federal Battery – RR II – MCBU – Maljamar:

On Sunday May 03, 2015 at 8:00 MDT, at Garnett Federal Battery a reportable spill was found during normal round. The leak was on the inside of the containment and resulted in a release of 12 bbl. of oil with 12 bbl. of oil recovered. The affected area will be power washed and the cause is under investigation. It will be reported to BLM/NMOCD and COPC. This is a PSE Tier 3 event. Consequence: 1, Likelihood: 5, RR: 2

Describe Area Affected and Cleanup Action Taken.\*

Release of 10 barrels produced water and 0.7 barrels of oil with none recovered. Affected area was 50 foot by 46 foot X 5 inch deep o caliche pad and was not contained. The affected area will be remediated according to NMOCD guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
