If a Watercourse was Impacted, Describe Fully.*

APPROVED

By OCD District 1 at 7:10 am, Aug 19, 2015

Describe Cause of Problem and Remedial Action Taken.*

This release was caused by a tank overflow after alarms failed. Vacuum trucks were dispatched to recover all standing fluid and repairs were made to the facility.

Describe Area Affected and Cleanup Action Taken.*

This release remained within the lined berm, fluids were able to be recovered and the facility was cleaned then put back into production.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
