If a Watercourse was Impacted, Describe Fully.*

REVIEWED

By Kellie Jones at 7:49 am, Jan 29, 2016

Describe Cause of Problem and Remedial Action Taken.*

Poly flow line froze and ruptured. The well was shut in and the line was repaired.

Describe Area Affected and Cleanup Action Taken.*

The entire release was contained on the lease pad. A backhoe was utilized to back drag release area and contaminated soil was placed on plastic.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
