RE: Work Plan

Mewbourne Oil Co.
El Mar 21 W1DM Fed COM 3H
D-21-26S-33E 200 FNL & 660 FWL

Jamie,

Trinity Oilfield Services is requesting closure of 1RP-3986 on behalf of Mewbourne Oil Company. As per the work plan approved by the NMOCD, this site meets the expectations in terms of contaminate levels. Time was of the essence as the EA was directly in the area of the loading lines on the battery. On March 21 we excavated the site in accordance with the work plan and hauled the contaminated soil to the disposal. The EA was immediately backfilled so that the facility would not have to be shut down. With all this be taken into consideration, we humbly request closure and thank you for your assistance in this matter.

Sincerely,

Todd Roberson
President
Trinity Oilfield Services & Rentals, LLC.

CC Zack Thomas, Mewbourne Oil Co.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
