NATURE OF RELEASE

Type of Release	Crude Oil	Volume of Release	20 bbl	Volume Recovered	10 bbl
Source of Release	Crude oil storage tank	Date and Hour of Occurrence	7/10/16 ~0400	Date and Hour of Discovery	Immediately
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required				
By Whom?	If YES, To Whom?				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No				
If YES, Volume Impacting the Watercourse.					

If a Watercourse was Impacted, Describe Fully.*

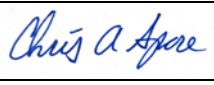

Describe Cause of Problem and Remedial Action Taken.*

Enterprise truck driver opened an incorrect valve that was connected to a tank that was out of service for repair. Oil flowed from the in service tank into the out of service tank and was released from the open manway. All released crude remained within the confines of the tank battery's secondary containment. A vacuum truck was dispatched, and was able to recover 10 bbl from the secondary containment. The 10 bbl was returned to the ECO pipeline system.

Describe Area Affected and Cleanup Action Taken.*

The impacts were limited to the caliche floor within the tank batter secondary containment. Upon the clearance of the utility locate, the impacted material will be disposed of at an approved disposal facility. Confirmation samples will be collected from the excavated area to demonstrate remediation is complete. Clean material will be hauled in and the excavation will be returned to pre spill conditions.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
