By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		

APPROVED

By Olivia Yu at 3:24 pm, Apr 14, 2017

Describe Cause of Problem and Remedial Action Taken.* In September of 2012, SUGS discovered a release had occurred on a four (4) inch lateral pipeline and the release had initially deemed to be a non-reportable to the NMOCD. On May 12, 2016, ETC filed a C-141 NMCOD form documenting the release as a reportable release. Please reference to the "Remediation Summary and Site Closure Request".

Describe Area Affected and Cleanup Action Taken.*

Please reference to the "Remediation Summary and Site Closure Request" submitted to the Hobbs OCD Office on October 20, 2016

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
