Dear Mr. Larson:

Based on the provided data in the addendum dated May 30, 2017 for 1RP-4665, NMOCD approves of the proposed remediation of no further action, although several locations 2-3 ft. bgs are above permissible chloride levels of 600 mg/kg. Please be advised that exceedance of permissible levels are evaluated on a case-by-case basis. The approved addendum is attached.

Please submit a concise closure report and final C-141 for 1RP-4665.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
