Dear Mr. Larson:

NMOCD approves of the proposed delineation plan and proposed installation of a temporary groundwater monitoring well for 1RP-4789. Please be advised that subsequent to data from EM surveys, soil bores, and potentially more permanent groundwater monitoring wells, the proposed placement of the temporary groundwater monitoring well for background assessment may be altered or additional wells may be necessary to evaluate upgradient hydrology.

Please see the attachment for your records.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
