---

Good Afternoon, John,

Upon a recent field inspection, SLO noted that there seems to have been a recent release at the above mentioned site. Due to the amount of soil that has been excavated at this time and the unresolved open RP (1RP-3961) from a lightning strike in 2015, I am requesting a C-141 be submitted to NMOCD. There does appear to be some pasture impact and it is unknown if it is from this release or the previous release. I have included Olivia Yu with NMOCD on this e-mail for your convenience on the submittal and please keep me on the e-mail chain for the submittal, the delineation plan and the work plan.

Thank you,

**Amber Groves**
