Good Morning,

NMSLO will agree with NMOCD that remediation requirements have been met. This site will be considered in a monitoring phase with NMSLO until desired vegetation levels are reached. If at any time, you would like to achieve full site closure with NMSLO, please submit photos showing vegetation for review.

Thank you,

**Amber Groves**

**Subject:** RE: Closure Request - 088210-32 Bridge State Unit #602H (1RP-4649)

Mr. Brandon:

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4649** closed. This

determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Like approval from NMSLO required.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
