---

Dear Ms. Gonzales:

Note: The surface ownership is Fee. NMSLO can confirm.

NMOCD approves of the delineation completed and proposed remedial activity for 1RP-4683 with one condition: submit 2 confirmatory surface (0-6") samples for laboratory analyses of TPH extended in the area represented by T-1. Sample locations should be <= 50 ft. apart. Please see the attachment for your records.

In the remediation/closure report, please include a scaled map with confirmation sample locations marked with GPS coordinates and provide photo documentation of the remedial activities.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
