---

Shelly,

Thank you for notification and release to continue with the spill delineation work.

Regards,  
Richard Grubbs  
Waste and Water Advisor

**Subject:** [**\*\*EXTERNAL\*\***] Salado Draw Delineation Plan

I went to the site today, with our archaeologist Stephanie, to address the issues that were brought up by the archaeologist staff.

Upon review of the site, the release did not impact the Arch site nor had Chevron disturbed the site from initial cleanup activities for the release. BLM, hereby, concurs with NMOCD approval of the delineation plan and any possible stipulations required. You are cleared to proceed.

**Subject:** Re: RE: C141 Salado Draw Water Recycling.doc

**I sent this email on another chain and I wanted to make sure everyone was aware.**

**YOU ARE NOT APPROVED TO DO ANY KIND OF DELINEATION OR DIRT WORKING ACTIVITIES. YOU HAVE NOT BEEN CLEARED FOR ARCHAEOLOGY AND YOU WERE TOLD THERE IS ARCH IN YOUR AREA.**

From what I have been told, **you have destroyed the ARCH site 100% loss.**

BLM never authorized you to proceed. I will be on site this morning with the archaeologist to assess the site damage.

If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

*Shelly J Tucker*

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Dear Ms. DeLeon:

Please confirm that this release occurred at the Salado Draw recycling containment and not the recycling facility.

The 1RP for this incident is

				Salado Draw Recycling Containment		26S- 32E- 23A	
<b>4818</b>	9/22/2017	A	Chevron	#11			<a href="#">9/13/2017</a>

Please note that a release characterization/delineation workplan as detailed in the attachment must be approved by NMOCD BEFORE any remediation work.

Thanks,

Olivia Yu
