Kimberly,

Your revegetation plan is approved. Please include future revegetation plans in the work plan that is submitted to NMOCD.

Furthermore, NMSLO agrees with the stipulations set forth by NMOCD on work plan approval.

Thank you,

Amber Groves

Subject: NVANU #73 - 1RP-4880 - Revegetation and Noxious Weed Management Plan

Amber,

Please find attached the Revegetation and Noxious Weed Management Plan for the above referenced location. We would like to begin remediation activities at this location next week.

Please let me know if you have any questions or concerns.

Thank you.

Respectfully submitted,

Kimberly

Subject: RE: NVANU #73 initial C-141 & Work Plan

Good Morning,

Can we get a response on this work plan? Lime Rock Resources would like to begin this

project as soon as possible so that it can be finished by the end of the year.

Thank you.

Subject: RE: NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Good Afternoon,

I received a notification from Talon on August 15, 2017 stating that delineation would be taking place at the NVANU #73. We still need a C-141 for this release. I am also in need of an update for the status of the work plan since the delineation was done in August. Please advise as soon as possible.

Thank you,

Amber Groves

Subject: RE: NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Good Morning,

This e-mail is a follow up to Dr. Oberding's e-mail last spring regarding the #73 OCD letter. I do not seem to have the clear separation between Limerock and alleged Mobil infrastructure that was requested in this e-mail. If this was sent in to NMOCD, please provide a copy to me for my files. Also, as ExxonMobil is the lessee on record and Limerock the operator for ExxonMobil, can you please clarify the reason the lessee on record is responsible versus the operator for ExxonMobil?

Also, my records reflect that we are still awaiting the closure reports for the NVANU #82 and the NVANU 5B #2. I have that backfilling was approved on the 82 in July of last year and the work plan for the 5B #2 approved in May of last year. When can we expect those submittals?

Thank you,

Amber Groves

Subject: RE: NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Aloha all,

Thank you for sending in these 141s. Mr. Keyes will provide the RPs in a forthcoming email. Regarding the NVANU #73- The OCD requires definitive evidence that the contamination is not associated with Limerock operations on that site (verbal testimony is not acceptable). A clear separation between Limerock and alleged Mobil infrastructure must be shown. Upon receipt of this evidence the OCD will review the issue.

Mahalo

一期一会

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: NVANU's Initial C-141's for #1, #82, 5B #2, #73 OCD letter

Good Afternoon All,

Attached are the initial C-141's for the Lime Rock Resources North Vacuum Abo North Unit (NVANU) #1 Battery, #82 Battery and the 5B #2 flow line release We have drilled these three sites already and are awaiting analytical results. We will then generate the work plans.

Attached also is a letter from Lime Rock regarding NVANU #73.
