Dear Ms. Johnson:

Please note that there is a water well within 1000 ft. of the location indicated as Site 2. Please verify.

NMOCD approves of the proposed delineation for 1RP-3979. Like approval from NMSLO is required as all releases occurred on State surface and minerals.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
