Subject: RE: Kaiser State SWD (1RP-4855) - Delineation Plan
Date: Friday, December 29, 2017 3:25:00 PM
Attachments: approved_1RP4855_KaiserStateSWD_DelineationPlan.pdf

Mr. Arguijo:

Note: A mistake in the RRAL value.

NMOCD approves of the proposed delineation plan for 1RP-4855 with these stipulations:

1. Each sample location must have at least two depths (depth obtained and depth maintained at least 2 feet further in depth) with permissible levels of BTEX, TPH extended, and chlorides.
2. Establish at least 3 sample locations (North, South, and West) on the exterior of the bermed area to complete horizontal delineation.
3. Please be advised that complete vertical delineation may exceed 12 ft. in depth.

Like approval from NMSLO required.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: Kaiser State SWD (1RP-4855) - Delineation Plan

Olivia/Amber,

Trinity Oilfield Services, on behalf of Cambrian Management, is pleased to submit the attached "Delineation Plan" for the Kaiser State SWD release site (1RP-4855). Trinity is prepared to begin the

proposed delineation activities upon your review and approval.

If you should have any questions, comments, or concerns, please do not hesitate to contact me by telephone or email.

Thank you for your time and consideration.

Respectfully,
Ben J. Arguijo
