Good Morning,

This is in fact on state land. It has now been added to my tracking sheet. NMSLO agrees with NMOCD on delineation plan approval. Please be advised that a revegetation plan will be required in the work plan that is submitted to NMOCD.

Thank you,

Amber Groves

Ms. Johnson:

According to NMOCD database, this release occurred on State surface and minerals, not Federal/Federal as indicated on initial C-141. NMSLO can verify.

NMOCD approves of the proposed delineation plan for 1RP-3327.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Subject: 1RP-3327 Wallingford #3 LSE Delineation Plan, December 15, 2017

Dear Ms. Yu,

Larson & Associates, Inc. (LAI), on behalf of Legacy Reserves Operating, LP (Legacy), submits the attached delineation plan for a crude oil spill at the Wallingford #3 LSE (1RP-3327) in Lea County, New Mexico. Your approval of the delineation plan is requested. Please feel free to contact Brian Cunningham with Legacy at (575) 391-1464 or bcunningham@legacy.com, me at (432) 687-0901 (office) or (432) 664-5357 (cell) or Mark Larson if you have any questions.

Respectfully,

Sarah Johnson
