Mr. Brandon:

Thank you for your prompt response. There is no record in NMOCD's database that the initial-final C-141 for 1RP-2505 was accepted for closure. Please ascertain whether there are any documentation verifying that remedial activities were conducted.

NMOCD will issue a 1RP for the release in 2005 and document that the assessment report submitted on November 13, 2017 will for this release.

What is the proposed plan for the release in 2013?

Thanks,  
Olivia

Olivia,

The attached C-141 forms for 1RP-1187 and 1RP-2505 appear to be final submissions that were signed by a NMOCD representative. The other two attached forms are the ones where I could not find RP#s for. The first one shows the Final Report box checked but it is not signed by a NMOCD representative. The attachment identified as "Second C-141 no RP#" is the release that is covered in our assessment report. Please let me know if you have any other questions.

Thanks

Good morning Mr. Brandon:

NMOCD does not have records of the initial C-141s as mentioned in the report under API well 30-025-27135. Please resubmit for identification.

However, there are two unresolved 1RPs associated with the aforementioned well: 1RP-1187 and 1RP-2505. Please determine whether one or both of these releases matches the releases covered by the submitted assessment report. If not, please inform of the plan of action to close 1RP-1187 and 1RP-2505.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
