Dear Ms. Johnson:

NMOCD approves of the proposed delineation for 1RP-4780.

Please note that the release occurred on Fee surface. BLM can verify.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
