Subject: RE: 11135250-8 (1RP-4850) A-14 Compressor Station Site Assessment Summary and Remediation Work Plan ~COR-11135250-08~
Date: Friday, January 19, 2018 3:46:00 PM

Mr. Brandon:

NMOCD has reviewed the assessment report for 1RP-4850.

- NMOCD agrees with the proposed activity for the impacted pasture area. Please remediate the entire overspray area.
- NMOCD requires complete delineation before addressing any proposed remedial activities or variances on the pad. Please provide an estimated timeline for retrofit of location, at which time full release characterization can occur.

Please confirm or inform for clarification.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
