---

Dear Mr. Holt:

NMOCD assumes that someone from Oxy has informed Venables of the situation. Since this is an abnormal timeline, NMOCD will grant an extension to the due date indicated on the directive. Please submit a delineation workplan for 1RP-4935 electronically by March 1, 2018.

Please remember to include this 1RP identifier to all communications. Also, please be advised that a release characterization/delineation workplan as detailed in the attachment must be approved by NMOCD BEFORE any remediation work.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I

575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** RE: Revised Initial C141

Mr. Dittrich:

Please note that a new 1RP will not be issued for the revised C-141. The same 1RP-4935 applies.

Thanks,  
Olivia

Olivia,

Attached is the Revised Initial C141 for this spill. Please review this new C141 and let me know if there are any questions. Thank you
